SALEEM ULLAH

BS Computer Science Student | Data Science & Data Analytics

Charsadda, Khyber Pakhtunkhwa, Pakistan | +92 318 9135395 | itxsaleemullah@gmail.com

Portfolio: https://saleemullah-portfolio.vercel.app/

PROFESSIONAL SUMMARY

BS Computer Science student specializing in Data Science at the University of Engineering & Technology Mardan, with a strong interest in data analytics, data visualization, and data-driven decision-making. Portfolio work highlights using Python, SQL, Excel, and Power BI to analyze information, build interactive dashboards, and identify business insights. Also interested in big data technologies and software development. Seeking an internship or entry-level opportunity in Data Science or Data Analytics.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | Data Science Specialization

University of Engineering & Technology Mardan | Expected Graduation: 2027 | 7th Semester

TECHNICAL SKILLS

Data Analytics & Visualization: Python, SQL, Excel, Power BI, dashboard development, business insights

Programming & Web: Python, JavaScript, HTML, CSS

Web Technologies: React.js, Node.js, MongoDB, Express.js, Bootstrap, REST APIs

Big Data: Hadoop, Apache Spark, distributed systems, data pipelines

Professional Skills: Communication, teamwork, problem-solving, leadership

SELECTED PROJECTS

Power BI Dashboard

Created an interactive dashboard using Power BI, SQL, and Excel to analyze sales performance and surface business insights.

Big Data Analysis

Used Hadoop and Spark in a project focused on processing large-scale datasets and generating analytical reports.

Amazon Clone

Built a responsive e-commerce website using HTML, CSS, JavaScript, and Bootstrap, demonstrating frontend development skills.

Personal Portfolio Website

Developed a responsive portfolio using HTML, CSS, and JavaScript, with animations and a modern dark-themed interface.

Flutter Shopping App

Created a shopping-app concept with product browsing, cart management, authentication, and responsive design.

MERN Blog App

Built a full-stack blog platform using MongoDB, Express.js, React.js, and Node.js, including JWT authentication.

CERTIFICATIONS & TRAINING

Data Analytics: Training in data analysis, visualization, and practical analytical tools.

Big Data Engineering: Training focused on big data technologies and distributed systems.

Python Programming: Programming training covering Python fundamentals and problem-solving.

Full Stack Web Development: Learning in frontend technologies and backend concepts.

Web Development: HTML, CSS, JavaScript, and modern web development.

Technical Training: Additional technical training and professional development.
